Please find below and/or attached an Office communication concerning this application or proceeding.

The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/690,776	Applicant(s) GERMAIN ET AL.	
	Examiner RAMON M. BARRERA	Art Unit 2832	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement filed 5/27/08 fails to comply with 37 CFR 1.97(c) because it lacks a statement as specified in 37 CFR 1.97(e). It has been placed in the application file, but the information referred to therein has not been considered.

Response to Amendment

2. The indicated allowability of some previously allowed claims is withdrawn in view of the newly discovered reference(s) to Li and Passow. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 72-75, 78-92, 95-108, 111-123, 126-136, 152-155, and 158-161 are rejected under 35 U.S.C. 102(e) as being anticipated by Li(US6580344).

Li discloses first (9,10,20,21), second (13,14,109,110), and third (5,6) electrical conductors; lifter 28 with first opening 29; latch 30 with second opening 31; reset lockout (col 5, lines 18-41); tripping test arm 70; coil 26 and plunger 42.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 76, 77, 93, 94, 109, 110, 124, 125, 156, 157 are rejected under 35 U.S.C. 103(a) as being unpatentable over Li, cited above, in view of Passow(US6642823).

Li did not disclose a movable bridge comprising a first finger and a second finger.

Passow disclosed a movable bridge with fingers to increase the probability they will make contact with stationary contacts in the presence of surface oxides or foreign particles on the contact surface (col, 5, lines 1-7). It would have been obvious to a person having ordinary skill in the art to employ in Li a movable bridge having first and second fingers for the reason disclosed in Passow.

Application of the Passow teaching to Li results in a first finger movable to electrically engage the second electrical conductor (13,14) and a second finger is movable to electrically engage the third electrical conductor(5,6) via the second electrical conductor.

Allowable Subject Matter

7. Claims 137-145 are allowed.

8. The following is a statement of reasons for the indication of allowable subject matter: Li in view of Passow, the closest prior art of record, failed to disclose or

reasonably wherein the line, load, and face terminal pairs are electrically isolated from each other.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to RAMON M. BARRERA whose telephone number is (571)272-1987. The examiner can normally be reached on Monday through Friday from 11 to 5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin G. Enad can be reached on (571) 272-1990. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
